# Mirashare

## Transform your EHS Management and Reporting across your organisation

## Trusted Cloud-based Health and Safety software for the Life Sciences Sector

### Key Benefits

• Key Performance Indicators aligned to your business, to support continuous improvement, enhance regulatory compliance and EHS performance.

• Standardise the way you report with structured data capture, configurable templates, increasing productivity and compliance.

• Easy to use and intuitive, facilitating user engagement and fostering proactive leadership, accountability, and ownership.

• A single "system of record" for all your organisation's EHS data, helping you to make more informed EHS decisions.

• Reflect your organisation structure and facility layout, and manage access through permission controlled modules.

**Mirashare** is a cloud-based health and safety software solution with a suite of modules catering to a wide variety of EHS needs including Risk Management and Chemical Approval, as well as Incident and Near Miss reporting using the latest mobile technology (IOS & Android). Our wide choice of modules enables an organisation to benefit from features that go beyond health and safety, to support business improvement, accountability and transparency.

Mirashare helps to build and support an environment where EHS is part of the culture – a culture where all employees are collectively engaged in driving improvements in EHS performance.

### Delivering excellence in EHS management

Our experience shows that organisations operating in the Life Sciences Sector are unusual because their employees work in such diverse environments. This includes manufacturing facilities, warehouses, R&D centres, laboratories, offices and vehicles. What they all have in common though is the need to be safe. With compliance already the lifeblood of your business, Mirashare provides a comprehensive, robust and configurable solution designed to support and enhance your EHS needs. With all your records in one place, management information and performance metrics are at your fingertips, giving you the instant visibility you need to meet and exceed your performance goals, and maintain compliance standards.

## Mirashare Software –
## Driving Strategic Advantage
**Here's what some of our customers say:**

Since we started using Mirashare we have seen an improved alignment of our procedures which has helped increase productivity and H&S compliance.  Overall, Mirashare has positively influenced a better H&S culture, improved compliance and ensured high H&S standards are confluent throughout the business.

*International manufacturer and supplier of advanced consumer diagnostics products*

Thank you for all the great support and service over the last few years and for helping me in my career.  I feel I may not have been as successful as I have if it wasn't for your great (Mirashare) product and your wise counsel in deploying it.

*SHE Manager, Large medical devices company, Ireland*

The inspectors were generous in their praise of our systems stating "Of all the places I have inspected, I am feeling pretty confident about you guys"

*Extract from an HSE inspection regarding Mirashare Change Control at a large Pharmaceutical client*

… Elmstone Systems' products are always a pleasure to use and offer intuitive and user-friendly interfaces which enable the maximum advantage to be made of moving from traditional to electronic solutions.
In my experience, I would have no hesitation in rating them 'top of the class'.
*Multinational Manufacturing client*

## A scalable solution to meet your changing need
Mirashare provides a scalable solution used by thousands of employees in both SMEs and multi-national organisations across the Life Sciences Sector. This sector is highly regulated with regular internal and external audits, and is often involved in M&A activity, organisational changes and restructuring to meet ever changing business priorities and maximise innovation opportunities.

Mirashare provides the scalability and flexibility you need to adapt to these events while maintaining the highest levels of EHS control, management, and compliance. Mirashare can grow and adapt with you. With 14 modules to choose from, the most popular adopted by our life sciences customers are:

- **Incident Management** – Captures and records comprehensive data about incidents, accidents and near misses. Provides vital information needed to carry out thorough controlled investigations and root cause analysis. Lets you report incidents remotely using the Mirashare fully integrated Mobile App, and notify the right people at the right time through automated email or SMS message.

- **Risk Assessment** – Supports all types of risk assessment, including COSHH, manual handling and task based. All hazards are recorded and rated on their probability and severity using a configurable risk management matrix. Attach MSDS & SDS as needed. Corrective and preventative actions are captured under the Mirashare action tracking module. Full version control means you can manage your risk assessment process with complete confidence. Share Approved Risk Assessments across Departments, and make sure those who need to know, have read, understood and signed them electronically.

- **Audit and Inspection** – A configurable means of recording and scoring all kinds of inspections, such as FDA, Lab and Safety inspections as well as ISO14001. An ideal repository for recording corporate and external audits, their outcomes, observations and actions. Capture photos relating to audit questions, and upload files of any type as evidence. All actions are tracked through the Mirashare action tracking module. Scheduler functionality helps set up and manage recurring audits, saving time on administration.

- **Chemical Approval** – A comprehensive and robust way of getting supplied chemicals formally assessed and authorised, the Chemical Approval Module includes REACH, Industrial Hygiene, ATEX, Environmental and Occupational review stages, if required. The module allows an approved user to link to Risk Assessments, supporting a high level of clarity, control and accountability.

## Key Features of **Mirashare**
